

About Lips

www.lipsband.com

"Your band is so much fun!"

"We love the variety of music you play!"

"When can we see you again?"

This is what the members of Lips hear most often after playing a venue or event.

With years of touring, recording and live performance experience in venues ranging from small clubs to festival stages, the members of Lips know how to please a crowd. They love giving audiences what they want: fun, familiar songs that they can dance and sing along to. Lips has created an extensive song list that spans the 50's to current day, covers a wide variety of artists, and includes multiple musical genres from rock to R&B with a kiss of country. There's no doubt they can please audiences of all types and ages.

Lips' goal is to keep the energy going by playing the right songs at the right times, flowing one song into the next. They tailor their song list to the crowd, and will accommodate requests.

You can count on Lips to be friendly, fun, and professional. They'll lay down the grooves where feet won't stand still, and infect the audience with their contagiously lively stage energy.

Let Lips bring the fun to you!
